STEP 2

Place part (H) between parts (C). Use screws (L) and tighten. Repeat this step on the other side. Take part (D) and place onto parts (C). Then, take part (E) and place onto parts (C). There is 1 extra hole on top of each part (D) and (E). Make sure these are on the same side that part (I) is on. This will become the back side of the unit. Next, using 4 screws (L) tighten part (J) between the lower section of parts (D) and (E). Repeat this step with the next shelf by using 4 screws (L) and tighten part (J) between the upper section of parts (D) and (E).

STEP 4

The last step is securing your unit to the wall. Place the unit against the wall and measure where the holes line up from the unit to the wall. You can leave a mark on your wall with part (M) or by using a pencil. Next, drill a small hole that is just large enough for part (N) to fit. Gently hammer part (N) into the wall until it is flush with the wall. Next, take parts (M) place them into the 2 remaining holes on parts (D) and (E). These holes will line up with parts (N) which are already placed into the wall. Next, screw parts (M) into parts (N).
